

issue, when few others were raising this concern.

I thank the chairman of the Transportation and Infrastructure Committee for his help on this issue and would like to work with him to make some technical and refining changes that are currently being discussed. I strongly support the solution included in this bill and look forward to it becoming law.

Mr. SHUSTER. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mr. WELLER) having assumed the chair, Mr. MCINNIS, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 961) to amend the Federal Water Pollution Control Act, had come to no resolution thereon.

NATIONAL SPACEPORT ACT

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California [Mrs. SEASTRAND] is recognized for 5 minutes.

Mrs. SEASTRAND. Mr. Speaker, tomorrow I will formally introduce the National Spaceport Act, but today, I would like to take a few minutes to discuss why I believe this is a critical and important step forward for American space policy as we prepare for the 21st century.

America has always been a world leader in space development, exploration, technology, and most recently commercialization. Our Nation has always understand the importance of space and has exercised bipartisan cooperation when it came to advancing space issues. This bipartisan cooperation has come from every corner of the political spectrum because of a universal recognition that space is an area of national unity and importance. I recently saw this bipartisan cooperation first hand during the deliberations over the California Spaceport and its 25-year lease with the Air Force.

We are now into the next frontier of space and that is the growing commercial arena. Commercial space was once an area dominated by the United States. However, over the past few years, we have relinquished our leadership position and stood by as other nations have stepped in and vigorously embraced the vast opportunities presented by this market.

Today, a European consortium controls over 60 percent of the commercial launch market. In addition, many other nations including China, Russia, Japan, India, Canada, and Australia are becoming stronger and stronger competitors. Most have the benefit of big and seemingly unlimited government subsidies. For example, earlier this year, the Japanese government announced a 5.1-percent increase in their overall space budget. The Russians have also approved a substantial increase in 1995 funding while the Indian Government increased their funding for
